

## Allies Sweep Onward Across Ourcq River, Pushing Boche Within Eight Miles of Fismes

### GERMANS STRONGLY COVER RETREAT TO THEIR NEW LINE ON THE VESLE RIVER

Boche is Fighting Desperately in New Pocket Created by Allies Following Capture of Fere-en-Tardenois, and Endeavoring to Hold Ville-en-Tardenois From On Rushing Franco-Americans.

### HUNS REPORTED BURNING VILLAGES

(By United Press.)

Paris, July 29.—4 P. M. — Sweeping north from the Ourcq, French and American troops are now within 8 miles of Fismes, the important German concentration center on the Vesle river.

Desperate fighting is under way in the new pocket between the Ourcq and the Vesle, where the Germans are strongly covering the retreat to the latter line.

In some places the Americans and French have pressed several miles beyond the Ourcq.

London, July 29.—The Germans are defending Ville-en-Tardenois, strongly resisting on the line from Chambrécourt southward, it was learned authoritatively this afternoon.

The boche also attacked allied positions in hill 181, southwest of Rheims, but were repulsed.

Fighting there is continuing.

The Germans are reported to be burning the villages on a line between Fismes and Soissons.

#### Town Changes Hands Often

With the French Army in the field, July 29.—The Germans are fighting desperately to restrain the Franco-American advance northward from the Ourcq. Repeated enemy counter attacks on Serzy last night and today resulted in the village changing hands several times, but remaining in the hands of the French.

South of Serzy the Prussian guard division attacked the Americans, who firmly held their line and inflicted enormous losses.

Newly won French positions north of Fere-en-Tardenois are firmly established.

The French captured much material, including a number of large guns. French and American troops have driven the Germans entirely out of the important concentration center of Fere-en-Tardenois and have pushed a short distance to the northeast, crossing the Ourcq.

The allies also advanced their line to the left and right of Fere-en-Tardenois, taking the villages of Ronchères and Villers-Agron.

#### Germans Lose Their Punch

With the British Army in France, July 29.—Following the recent victorious advances of the allies, the German armies never again will be able to drive forward with the punch they carried with the opening of the 1918 drive last March.

With the starting of the fifth year of the war, it seems to be merely a question of time before the fourth retreat of the Germans to defensive positions will have to be carried out, in the hope that it will be possible to obtain peace before the stream of arriving Americans swell the forces of the allies so that an unconditional surrender will be forced.

It is an open secret here that it is becoming increasingly difficult to fill the German field depots. Boys of the younger German classes cannot be counted in the same class with the Americans who are daily arriving in such numbers as to nullify completely Germany's new crop.

#### Yankies Cross Ourcq

Washington, July 29.—"Our troops have crossed the Ourcq and captured the towns of Seringes, Serzy and Ronchères," General Pershing reported today. "Our troops continue in pursuit of the enemy."

#### Australians Advance.

London, July 29.—Australian troops advanced on a two-mile front between the Aisne and Somme rivers, capturing two lines of German trenches and taking 100 prisoners. Field Marshal Haig reported today.

#### Yankies Repulse Huns.

With the Americans in France, July 29.—Noon.—The first notable counter attack against the Americans in force since the latest German retirement began, was made today between Mesle and Serzy. It followed a severe bombardment of the whole line but was completely repulsed. The boche suffered severe losses along the entire line. More than 300 German dead were found piled in a single narrow ditch.

The Americans captured a footbridge across the Ourcq guarded by machine guns, in a direct, frontal rush. The retreating boche were shot down as they scurried up the opposite bank. The Americans are continuing to advance north and northeastward from Fere-en-Tardenois and are improving the positions they took yesterday.

Fighting continues on the north

### Hold's Lower Half Salient

Allies Gain Complete Possession of Territory by Hard Fighting of Infantry, Cavalry and Tanks. Fere-en-Tardenois Captured After Desperate Struggle.

(By United Press.)

With the American Armies in the field, July 29.—Hard fighting by the infantry, cavalry and tanks, following up the terrific artillery bombardment, has given the allies complete possession of the lower half of the wide, deep salient between Soissons and Rheims.

Fere-en-Tardenois was captured only after a desperate struggle lasting many hours. The French and the Americans co-operating with them found many machine guns cleverly concealed in houses and cellars. These were wiped out in bitter hand-to-hand struggles, in which no quarter was asked and none given.

The Germans had destroyed all the bridges across the Ourcq, but the pools and doughboys forded the shallow stream at several points in the face of a storm of bullets.

The allies also advanced their lines to the left and right of Fere-en-Tardenois, taking the villages of Ronchères and Villers-Agron.

The French and Americans are proceeding cautiously, and are determined to waste no men in the machine gun filled Bois-de-St. Uniere (northeast of Fere-en-Tardenois).

Cavalry felt out the German positions there late Sunday. The boche are expected to put up a strong resistance in that wood, as they are already doing in Ville-en-Tardenois but the Franco-Americans may adopt the plan so successfully employed in the past of encircling the wood and cleaning out the nests afterward.

The advancing allies are finding their path strewn with remarkable numbers of enemy dead.

From a hill Sunday they looked across the land which the kaiser was permitted to enter, but not to remain in. Around the edge of a similar hill three miles away houses of Fere-en-Tardenois were visible.

From somewhere beyond the boches were pitching their big shells in a near barrage this side of Fere-en-Tardenois, Oulchy-le-Chateau and Oulchy-le-Ville. The air was filled with the rumbling of the cannon and the chatter of machine guns with which the Germans were being run out of the pocket.

From all parts of the rolling expanse flashes—as of a hand mirror in the sun—told where the 75s busily slammed away. High above the horizon shrapnel burst unceasingly, forming an ecteal barrier against Hun airplanes.

In this manner the French "ouster proceedings" were being carried out, economizing on lives and teaching the Americans to do the same. The same purpose is partly responsible for the use of small tanks during the last several days. Their value has been proved since the 18th in nearly every sector. They have destroyed twenty-five machine gun nests, permitting the infantry to come up and take the guns without loss. All tanks have made at least two expeditions daily.

#### STRIKERS TO RESUME WORK

(By United Press.)

London, July 29.—Striking munition workers in Coventry, the center of the present disturbances, decided today to resume work immediately and accept the government offer of mediation.

### BOYS FINED FOR STEALING POSTS

Cases Against Wayne Daubenspeck, Walter and Clifford Stevens and Byron Hinchman Appealed.

#### TO BE TRIED IN HIGHER COURT

Young Men Are Fined \$1 and Costs by Mayor Irvin After Being Caught Taking Traffic Posts.

The case against Wayne Daubenspeck, Walter and Clifford Stevens and Byron Hinchman for malicious trespassing, which was tried this morning in the mayor's court following the arrest of the boys on Saturday night for disturbing the traffic posts, has been appealed to the circuit court.

For some time the police authorities have been considerably annoyed by the disappearance of traffic posts from the north part of the city and after repeated attempts to find the offenders, placed a special guard at the corner of Ninth and Main streets at nine-thirty o'clock Saturday evening. Shortly before midnight a machine drove up, and picking up the posts, the boys were about to drive away when they were arrested by the guard.

Upon their promise to return and stand trial Monday morning, they were released after they were taken to the police headquarters and this morning when the case was opened Donald Smith appeared for the defendants and in answer to the fine of one dollar and costs, appealed their case to the circuit court without any offenders being placed on the witness stand. A hearing will be given some time next term, which will not open until September.

Mayor Irvin has issued a warning

### PHOENIX LODGE SENDS LARGE CROWD SUNDAY

Representation Sunday Largest of Any at Weekly Services Held at Indiana Home at Franklin

#### CONTRIBUTION OF \$150 BEST

To Phoenix lodge No. 62, F. & A. Masons, belongs the credit for having the largest crowd at the Indiana Masonic home at Franklin, ever at any of the weekly meetings which are conducted by the various lodges of the state. The delegation from the Rushville lodge, two hundred and fifty strong, went to Franklin yesterday, conducted a program in the chapel and was taken on an inspection tour of the buildings.

There were fifty machines in the party which went for the exercises. The Rushville lodge was warmly complimented for the showing it made, and likewise for the contribution of \$150 to a fund which is being raised to erect a monument and arch in the home cemetery. This is far in excess of the donations of any other lodge conducting the Sunday exercises there.

Opening the program, a chorus of Rushville girls sang "There's a Long, Long Trail" and Charles Ernest Parke played a violin solo. E. B. Thomas gave the scripture reading and the audience sang "America," and following a prayer by George C. Wyatt and a solo by Mrs.

### NEW LIGHTING PROGRAM BEGUN

City Will be in Semi-Darkness Each Evening of the Week Except on Saturday.

#### RUSH COUNTY GOES LIMIT

Fuel Administrator Asks 2 Nights, But Public Lighting Will be Curtailed 6 Nights.

Tonight will mark the inauguration of a new fuel conservation program in Rush county similar to that of last winter.

Beginning tonight the city will be in semi-darkness each evening with the exception of Saturday, when all of the down town lighting system will be allowed to run full force. The ruling, part of which is being enforced in co-operation with the requests of the state fuel administration, has been made a county-wide affair, following a conference between S. L. Trubue, county fuel administrator, and the other officials.

The rulings of the state require only that the fuel conservation be observed on two evenings—Monday and Tuesday of each week—but because of the seriousness of the fuel shortage, local authorities have decided to go the limit on the part Rush county is to play in the state wide program, which has resulted in a six-day conservation program being inaugurated here instead of one of only two days.

Only the topmost light in each of the cluster lights will be lit and all unnecessary window lighting will be cut down, with a total abolishment of advertising lighting signs on the nights when the conservation rules are in effect. Window lighting in pool rooms, candy kitchens and simi-

### REPORT PLACES 24 REGISTRANTS IN ONE

All But Ten Are Denied Deferred Classes by District Board—First of Small Increments Leaves

#### TWO OTHERS GOING THIS WEEK

\*\*\*\*\*  
The rulings of the district board in the 34 cases will be found on page three today.

\*\*\*\*\*  
Twenty-four registrants of the class of 1918 were added to class one today when a report on the cases of thirty-four were received from the district board. Seven were placed in class two and three in class three on account of agricultural claims. Most of the twenty-four left in class one asked for deferred classification.

The first of a number of small increments from this county, to go within the next month, left this afternoon at 2:50 over the C. I. & W. when William H. Morris and John Barnett of this city started for Vancouver, Wash. They will be inducted as band saw filers into the aviation division of the signal corps. The next of the increments leaving will be composed of Chase Brooks of this city and Harold E. Ratliff of Carthage. They entrain Wednesday afternoon at 3:30 over the C. I. & W. for Syracuse, N. Y., and on the following day Vern W. Bell, Marion McBride and Donald H. Foster depart for Valparaiso at 10:51 a. m.

### LOCAL TALENT IN DRAMATIC PAGEANT

Will Assist in Presentation of "The Book of Job" at Chautauqua Sunday Night

#### REHEARSALS BEGUN TODAY

Professional Players Who Will Give Pageant Also Will Offer Mixed Program in Afternoon

Local talent will be featured in the religious dramatic pageant "The Book of Job," which will be given at the evening program of the chautauqua next Sunday, Aug. 4.

A dozen high school girls ranging from the ages of fourteen to sixteen will take part in the unique drama, acting out numerous Egyptian dances, attired in beautiful costumes of ancient Egypt. Rehearsals among the girls were begun this morning and will continue each day during the week because of the difficulty in mastering the steps which require grace in each movement.

The girls who will take part in the dances of the pageant are Miss Marjorie Clark, Miss Marguerite Kelly, Miss Josephine Scholl, Miss Jane Dean, Miss Jean Sparks, Miss Joan Weakley, Miss Ruth Kennedy, Miss Helen Thomas, Miss Leatha Higgins, Miss Florence Fleehart, Miss Frances Bowen and Miss Virginia Haydon.

The pageant will doubtless be the greatest new feature of the chautauqua. Professor W. H. Head, the producer of the entertainment, has been a professional impersonator and reader for many years. He will play the part of Job. Five other professional actors will take part in the unique affair, all of whom will wear the picturesque costumes of Egypt.

The storm scene in the drama is said to be one of the most spectacular features appearing on the program. In the afternoon the players will give a mixed program, including a part of Pilgrim's Progress and ending with a patriotic sketch and impersonation of Abraham Lincoln.

Sunday's program will also be featured with other musical numbers which will be especially pleasing to local people. Lewis Rawlings a talented violinist of Indianapolis, who formerly resided here, will appear on both the afternoon and evening programs. He is unusually versatile and has a splendid repertoire. The tones and technique which are employed by the artist are unusually fine.

Mme. Edna Swanson Ver-Haar, the famous Swedish prima donna, will also appear on the afternoon and evening programs next Sunday. She possesses a pleasing contralto voice and is expected to win favor before a Rush county audience. Mme. Ver-Haar was once soloist with the Minneapolis symphony orchestra and has appeared in recitals in many of the large cities of the United States.

#### BERT WEST EMBARKS

Mrs. Bert West has received word from her husband, Corporal Bert West, that he has embarked for overseas service. Corporal West enlisted in the marine corps about three months ago, and during that time trained in camps at Paris Island, N. C., Miami, Fla., and Philadelphia. Before enlisting, West was engaged in farming in this county.

Mrs. Jaom Meyer, who was recently operated on in Connorsville, has returned to her home here.

GERMANS STRONGLY COVER RETREAT TO THEIR NEW LINE

Continued From Page 1

bank of the Oureq at some points where the German defenses were not completely wiped out. The crown prince is retiring toward the Crise and Vesle rivers and may fall back clear to the Aisne.

The biggest American advance since the start of the Franco-American push was carried out across the Oureq near Sergy Sunday morning. Squeezing of the pocket on the right and left side while thrusting forward in the middle, sent the Boche farther in retreat.

The Americans steadily advanced all day Saturday through a heavy rain. They fought through tangled, narrow paths in woods and across fields, routing out machine guns and gun nests and pushing on as resistance was demolished.

One regiment marched and fought sixteen and three-quarters miles in twenty-four hours, in order to keep up with the faster moving units in other parts of the line, where resistance was lighter.

At 9 o'clock Sunday morning American machine guns were stationed on Hill 141, outside of Fere-en-Tardenois, sweeping the avenues of retreat from the city. The artillery was brought up to the heights outside Sergy. Such towns as Ronchiers, (four miles south and east of Fere-en-Tardenois) and Courmont (a mile northeast of Presnes) were completely enveloped and passed. Village after village fell to the

PREPARE TO TURNOVER PHONE PLANT JULY 31

Rushville Co-Operative Co. Expects No Radical Changes With Government Taking Charge

NO ADVICES RECEIVED YET

The Rushville Co-Operative Telephone company is making final business arrangements, preparatory for the taking over of the concern by the government on Wednesday July 31.

The books are being checked up and all business tabulated in such a manner as to render the report to the government rapidly and easily. Despite the fact that the company will be run along lines of civil service local managers believe there will be no radical changes in the office here or at any place through Rush county, at least for the time being.

The telephone charges for long distance calls and for telephone rents are not expected to be affected at present. In fact, no advices concerning changes in the management of the county phones have been received by officials here.

Americans. Two main points of resistance were encountered—the first at Croix Rouge farm; the second at the Durck. Both were thick with machine gun defenses. The gunners continued their fire as long as possible, then withdrew, set up their guns again and resumed firing until they were wiped out.

The Americans swung forward two or three kilometers (a mile and a quarter to a mile and three-quarters) after disposing of one line of machine guns defense before encountering the next. Then the fight had to be repeated.

Hold North Bank of Oureq.

London, July 29. — 1:40. — The French and Americans have advanced three miles on a twenty-mile front since Sunday noon it was learned from an authoritative source this afternoon. The allies now hold all the Rheims-Dormans highway and the entire north bank of the Oureq.

The German retreat continues from the lower end of the pocket but the enemy is resisting desperately in the Ardre valley southwest of Rheims and at Duzaney, south of Soissons. The Americans are engaged in heavy fighting in the latter region.

WHEW!  
\*Washington, July 29.—America's war bill has reached \$13,000,000,000. This government is now paying out approximately \$50,000,000 a day or over \$2,000,000 an hour.

John Megee is very critically ill at his home at the corner of Morgan and Seventh streets.

Our "Annual Harvest Sale" Closed Saturday, But--

For your benefit and to enable us to close out the remainder of a few items about sold out, we will continue the Sale Price on them THIS WEEK—besides calling attention to some items not included in last week's sale and now offered for your consideration.

MORE LARGE WHEAT YIELDS ARE REPORTED

One Field on George Gray Farm Averages 43 1/2 Bushels and One on J. Frank Wilson Farm 38

WHOLE CROP AVERAGES WELL

The latest record for excessive wheat yields among Rush county farmers was reported today from the farm of George Gray, east of the city.

An average of forty-three and a half bushels of wheat were threshed to each acre in a fourteen-acre field, according to the report which ranks second highest in the county thus far. An average of forty-nine bushels being already reported from the farm of J. M. Amos south of the city. The crop on the Gray farm from the single field amounts to some over six hundred bushels of wheat which graded unusually high.

J. Frank Wilson of Noble township has also reported a good yield of wheat. His whole crop of seventy-two acres amounted to 1,898 bushels, or an average of twenty-six bushels to the acre. One field of nineteen acres produced seven hundred and thirty bushels, an average of thirty-eight and two-fifths bushels to the acre.

FOR STEALING AUTO TIRE

Charles Offutt, 18, is Arrested in Connersville After Theft Here

Charles Offutt, age eighteen years, was arrested in Connersville yesterday and returned here after having attempted to sell an automobile tire which he stole here for \$15. The tire was worth \$56. The tire was consigned to Clark and Caldwell of this city and had reached Rushville. It had not been delivered, however, and was still at the C. I. & A. depot where Offutt is alleged to have stolen it Saturday night. The authorities learned that Offutt went to

# The Newspapers and the People

Never were people so close to their newspapers as they are today. Never were the "dailies," great and small, performing such splendid service.

They are rallying the people to war duties. They are taking up one after another, the calls of the Government and directing mass thought and mass action.

The newspaper is today a greater, stronger, more economical, more efficient advertising medium than ever before. People seek the guidance of newspaper advertising more assiduously today because their need is greater.

Patriotic business men, merchants and manufacturers are giving the people helpful advertising messages through the newspapers.

They are directing the buying habits of the people into the channels that will be most useful to the Government.

Connersville on the midnight freight and tried to dispose of the stolen property and immediately notified the Fayette county sheriff.

**NEW LIGHTING PROGRAM IS BEGUN**

lar business which remain open at night will be cut down to a considerable extent. The decorative lights will be abolished according to a decision reached by the local fuel administrator.

**ORLANDO SIMMS IS OVER**

Another former Rushville boy has arrived in France, adding to the steadily increasing number of arrivals overseas. Orlando Simms, son of Mr. and Mrs. Al Simms of Cincinnati who resided in this city until a few years ago, has safely landed on the other side, according to information received from his relatives and friends here. Simms who is serving in the medical department of the army, is a graduate of the high school and was prominent in various musical organizations in this city as a violinist.

**LET POTATOES FIGHT**

They Save Wheat When you eat potatoes

U.S. FOOD ADMINISTRATION

Potash At Present Price Can't Be Used At a Profit On Field Crops

Many farmers are asking whether it pays to use potash on wheat at the present prices. The question is a pertinent one at this time. Let us see why potash is so high today. Before the war, potash was bought from Germany where it was obtained chiefly in the form of muriate of potash much the same as we produce common salt in America, and in fact, it is chemically similar to common salt. At that time it was selling for about 50 dollars per ton or less in retail quantities. Today it costs from 300 to 400 dollars per ton. When the German supply was cut off our government sent out investigators to study the possibility of producing potash at home. We have no mines where it can be obtained profitably. The cement manufacturers are producing some; some lakes in the arid regions of the west produce potash and the ashes of a kind of seaweed called kelp are used for the potash, which they contain. These sources, however, have not been sufficient to supply the demand. The normal price for potash is about 5 cents per pound, but now it is about ten times that price in mixed

goods. At these prices potash can not be used at a profit on field crops and should be saved for gardens. Potash when used alone on clay or loam soils seldom gives sufficient return in the wheat to pay the cost of the fertilizers; but when used with a carrier of phosphoric acid has usually paid a reasonable profit at normal prices. The following is a safe rule by which a farmer may figure the value of any fertilizer: Multiply the per cent of nitrogen by 7, the per cent of phosphoric acid by 1.72 if carried by acid phosphate or 1.52 if by bone, and the per cent of potash by 3. Add the products and the sum will be the value in dollars. If we have a 1-9-1 goods with the phosphoric acid from acid phosphate the problem will be as follows:  
7 times 1 equals 7.  
1.72 times 9 equals 15.48.  
2 times 1 equals 2.  
7 plus 15.48 plus 2 equals \$25.48 which is all that the farmer can afford to pay for this material for use on the average soil. If the mixed goods cannot be bought on this basis, acid phosphate or steamed bone meal should be used.

# Personal Points

—J. D. Meggie spent the day in Connersville, transacting business.

—Russell Gray has gone to Indianapolis where he has taken a position.

—Mr. and Mrs. Stephen Kelly spent the day in Indianapolis and Brooklyn, Ind.

—Miss Helen Long and George Potter of Anderson motored to this city yesterday.

—Miss Nora McCoy of Indianapolis spent Sunday in this city, the guest of friends.

—Blaine H. Ball of Chicago is visiting his mother, Mrs. Sarah Ball in North Jackson street.

—Miss Pauline Felts and a party of friends from Connersville motored to this city yesterday.

—Mrs. J. William Summers and son Fred of Newcastle are the guests of Miss Allene Budd.

—Wayne Daubenspeck and Clifford Stevens were the guests of friends in Shelbyville yesterday.

—Deming Havens and Conwell Smith motored to Shelbyville yesterday and were the guests of friends.

—Harold Perkins and Howard Stiers motored to Connersville last night where they were the guests of friends.

—Mrs. Fred Arbuckle has returned from Indianapolis where she was the guest of friends and relatives for a week.

—Mr. and Mrs. Ben Logan of Indianapolis spent the week-end in this city as the guests of friends and relatives.

—Charles Schattner of Coeur d'Alene, Idaho, is visiting his parents, Mr. and Mrs. Henry Schattner of this city.

—Mr. and Mrs. Thomas Rafferty of Indianapolis have returned to their home after visiting relatives in this city for a few days.

—Mr. and Mrs. Fred Greene and Mr. and Mrs. B. E. Clifford of Liberty motored to this city yesterday and spent the day with friends.

—P. P. Willis of Toledo, O., will arrive this evening for a visit with relatives. Mrs. Willis and son John, have been visiting in this city for the last few weeks.

—Mr. and Mrs. Peter Nickel and family and Miss Hattie Taylor motored to Moores Hill Sunday afternoon and visited Mr. and Mrs. Albert Craven and son, Forest.

—Private Charles Sherman of the Purdue training school, at Lafayette has returned after spending the week-end in this city the guest of his parents, Mr. and Mrs. Wade Sherman.

—Mr. and Mrs. Ralph Harrold and daughter Maude Adeline of Newcastle have returned to their home. Mrs. Harrold and daughter were the guests of relatives here for a week.

—Mr. and Mrs. Bert Mullin and son Franklin have returned from a motor trip to Detroit. They were accompanied home by Mr. and Mrs. Howard Mallin of Huntington, who will remain for a visit.

—Cecil Marshall who registered at Lawrenceville, Ill., left for that place this morning where he will join a number of other selective men and proceed to a training camp for military training. Marshall whose hand was injured some time ago in an accident at a local bakery, was selected for limited service.

# LISTS REFLECT SEVERE FIGHTING

Total U. S. Casualties to Date Number 13,766, According to the War Department

INCREASE FOR WEEK IS 1,050

Sunday's List of 225 is Longest Given Out in Any One Day Since U. S. Entered War

Washington, July 29.—Losses in the severe fighting along the Aisne and Marne, in which American troops have participated, are now being reflected in the casualty lists issued by the war department. Sunday's list of 225 names was the longest given out since American units made their appearance on the battle front. Today's list had 199 names. Several last week were long. These, however, it is believed, give casualties resulting from the recent German offensive operations rather than from the allied counter-stroke now in progress.

Total casualties in the army and marine corps overseas increased 1,050 last week, compared with 983 the previous week, and aggregate 13,766 with the inclusion of Sunday's army list of 225 and the marine corps list of 2. The week's increase also was the largest yet recorded.

In the 13,766 casualties, total deaths, including 291 men lost at sea, men killed in action, dead of wounds, of disease, accident and other causes, numbered 5,493. These of the army being 4,783—for the marines 710. The wounded aggregate 7,532, those for the army being 6,340, for the marines 1,192. Those missing, including prisoners, totaled 741: those for the army being 657, for the marines 84.

Of the week's increase, 949 were army men and 101 marines. Killed in action and other deaths numbered 393, compared with 427 the previous week; the wounded numbered 591, compared with 465 the previous week, and the missing and prisoners 66, compared with 91 the previous week.

The army casualty summary as officially announced follows: Killed in action (including 291 at sea), 2,009; died of wounds, 749; died of disease, 1,455; died of accident and other causes, 570; wounded in action, 6,840; missing in action, 657; total to date, 11,780.

The official summary of marine corps casualties follows: Deaths, 710; wounded, 1,192; in hands of enemy, 5; missing, 79; total to date, 1,986. Officers included in the marine corps summary totaled 58. The army summary does not distinguish officers from enlisted men.

## PREPARE FOR GERMAN U. S. COMMUNICATION

Red Cross Makes Arrangements Whereby Hoosiers May Get in Touch With German Relatives

PRECAUTION WILL BE TAKEN

(By United Press.)

Indianapolis, July 29.—The Red Cross in making arrangements for relatives of Hoosiers in Germany to communicate with them, takes the utmost precautions to prevent information from reaching the enemy, it was stated today at Red Cross headquarters here.

Those wishing to communicate with persons in Germany must first write out their messages in the Red Cross chapters. These are sent to the national headquarters where they are rewritten and the wording changed to prevent use of a secret code. The censorship board then passes on the messages.

Upon reaching a neutral country, the messages are translated into another language on other paper.

The national Red Cross is now sending more than 1,000 letters a day to persons in enemy countries by this method.

# CROWDER STUDIED DRAFT FOR YEARS

Provost Marshal Ready When Call Came as he Had Made Complete Study of Conscription

ALL SUGGESTIONS ACCEPTED

Began Study While Junior Lieutenant at An Obscure Army Post in Southern Texas

Washington, July 29.—When the call came to Provost General Enoch Crowder to handle Uncle Sam's big selective draft, he was ready because he had spent his entire army career in preparation.

Rep. Greene, Vermont, who, as member of the house military affairs committee has come into intimate contact with Gen. Crowder, tells how the latter spent a lifetime studying for the big job he now holds.

"When Gen. Crowder was a junior lieutenant at an obscure army post in Texas he chanced upon a copy of old civil war draft regulations," Greene said.

"He read them over, first out of curiosity. Then he began to think how those rules could have been made more just and equitable.

"Gradually he evolved his ideas of how a draft should be run and with the idea came the conviction that some day in this country there would be the need of a great army and that his army would be raised, not from volunteers, but a process of selection from the total man power of the country.

"Meanwhile Crowder was advancing in the army step by step.

"When the United States entered the war Gen. Crowder was the one man in the army who was ready to go before congress with a concrete suggestion for the framing of a selective draft law."

Other members of the military committee say Crowder's suggestions were written into the bill almost without change.

## BANKERS WILL MAKE SOME LOANS TO CHINA

State Department Announces Agreement Has Been Reached With American Financiers

ALLIED BANKERS MAY HELP

Washington, July 29.—The state department announced today an agreement has been reached with a group of American bankers whereby a loan or loans will be made to China.

The agreement provides an assurance on the bankers part that they will co-operate with the government and follow the state department's policy.

In return, the department agrees to take every possible precaution that will insure the execution of contracts made by American citizens in foreign lands.

British, Japanese and French bankers, it is hoped, will be associated with the American group and negotiations are now pending to grant the bankers equal part in the loan.

## ON BUYING DAMP WHEAT

"The threshing and buying of damp wheat is absolutely contrary to the desires and purposes of the food administration and is contrary to the principles of food conservation," said Dr. Harry E. Barnard, federal food administration for Indiana today. "Wheat should not be threshed or purchased containing over 14% moisture. Dealers who purchase damp wheat and permit it to get out of condition will be considered guilty of contributing to the destruction of food stuffs."

## Rush County Chautauqua!

The 15th Annual Session will be held at the Coliseum Aug. 3 to 11.

The entertainment that goes with the Chautauqua this year is equal to that offered by the best amusement houses. The lectures are by competent men, several of whom are straight from the battle fronts. They will spread France out before you — and you will see where your boy and your neighbor's boy are helping re-make the world. It is hard to entertain and instruct every member of your family at the same time, but the Chautauqua does it.

Don't fail to attend and urge your friends to attend.

Single admissions August 3d and 4th—35 cents.

Single admissions, August 9th and 11th — 50 cents; children 25c.

## Our Finances Compared

Pessimistic Americans who view with alarm our increasing national obligations may derive a great deal of comfort from a comparison of the financial condition of the United States contrasted with that of Germany.

The total resources of the United States are estimated at about \$250,000,000,000; our annual earnings are estimated at about \$50,000,000,000. Our national debt, including the third liberty loan, may be put around \$12,000,000,000.

Before the war our Government was spending about \$1,000,000,000 a year. When the war is ended, interest charges, less the interest collected from our loans to our allies, Government insurance expenses, and other necessary expenditures growing out of the war may conservatively be estimated at something like \$1,000,000,000. We are confronted, therefore, when peace comes, with raising only a couple of billions a year revenue, a slight task for a Nation of such tremendous wealth, capacity, and resources.

The resources of Germany before the war were estimated to be \$80,000,000,000. The annual expenditures then of the Imperial Government were about \$800,000,000. Her debt now is \$30,000,000,000 and her resources and man power have been severely impaired. After the war she is confronted with additional expenditures growing out of the war totaling some \$1,000,000,000.

The interest of her war debt, even if the debt grows no larger, will be about \$1,500,000,000. Although she is regarded in her pensions to private soldiers and their families, \$1,000,000,000 a year would hardly suffice to pay even small pensions to her injured and the families of her soldiers who have been killed. Her war debt must be paid some time and a sinking fund of 5 per cent would add \$1,500,000,000 to her annual taxation. Here is a total increase of \$4,000,000,000 all due to the war.

Of course both the United States and Germany may greatly increase their debts, but the increases will not change the relative situations.

The German Government has drained the German people of their gold, even their jewels and heirlooms and yet the Imperial Bank of Germany now has but little over \$500,000,000 of gold in its vaults. The United States has made no special effort to obtain gold, has made no call upon the people for the precious metal, and yet today has in its Treasury vaults practically \$2,500,000,000 of gold coin and bullion.

Housewives who have not laid in their canning supplies should do so at once, advises the United States department of agriculture. Reports from the States show that already some sections of the country are having difficulty in securing containers for home canning. The shortage of tin cans glass jars and rubbers, coupled with delayed express shipments, make it imperative to

## People's Column

**Patriotic in Kentucky**  
Rushville, Indiana.  
July 26, 1918.  
Editor Rushville Republican.

Dear Sir:—  
Since coming to Rushville I have been told that certain individuals were circulating reports that people living in Kentucky were not observing the food conservation regulations as they were being observed here. Having lived in western Kentucky for the past two years and having traveled extensively through the western part of that state during the past year, I have had opportunity to know that flour and sugar and beef are not sold in quantities greater than are permitted in Rushville. Indeed, I find the same restrictions applying there and in southern Illinois as are in force here—the same meatless and wheatless days and substitutes with flour. So far as I have observed there is no difference in this respect in any of the places that I have been.

C. W. FERREE.

July 29, 1915

German empress, obeying her lord and master, appears at Neidenburg, Polish frontier, for entry into Warsaw, but her husband is unable to escort her into the city, owing to presence of the Russian army.

July 29, 1914

Russia mobilizes 1,200,000 men. Wilhelm summons his war chiefs.

place orders for supplies immediately if the needs of the next two months are to be met.

Who knows, the next thing in the way of special newspaper articles may be revelations by the Kaiser's barber!

## QUESTIONNAIRES FOR RUSH COUNTY DOCTORS

Every Physician in County Must Reply to Questions and Return to Government

### THOROUGH CLASSIFICATION

In order that the medical profession in Rush county might be classified, questionnaires have been mailed to every doctor in Rush county by the council of defense officials.

The data to be secured from the questionnaires will be sent to the Washington office for reference by the government in securing physicians for army and navy service. There is probably no other state in the union which has attempted such a thorough classification of the medical profession and by a rapid completion of the questionnaire program, the classification committee expects to place Indiana near the head of the list.

## FEAR "WIRE DISEASE"

London, July 29.—During the negotiations between Turkey and the British Foreign Office for the exchange of prisoners of war, Turkey sent a demand that all barbed-wire fences be removed from the camps where Turks were being held. The Turk Foreign Minister had been told of "wire disease" among prisoners and wanted them spared from further infection.

The enemy representatives were willing to agree to smooth wire barbed-wire because the new disease seemed to come only from barbed wire.

The point held up negotiations momentarily while the British convinced the Turks that "wire disease" is a slang term meaning a nervous collapse and not a new communicable disease suffered by persons who happened to touch barbed wire.

## War Hints—War Helps—War Duties

(Compiled and condensed for the Indiana State Council of Defense by George Ade.)

All of the tides have turned. The Germans have begun to move in the right direction. The U-boat peril is on the wane. The production of ships and airplanes and big guns is gathering speed after a period of uncertainty. Two of the big grain crops are being harvested. It is in the air that our people have come to bat for the decisive inning and that we are going to win. But it is no time for sitting back and taking things easy. Put increased vigor into all war work and don't waste valuable time discussing compromise peace terms.

The National and State Councils of Defense favor community singing. Each town should have a trained Liberty Chorus to sing the songs of our country and our allies at public assemblages. Possibly a state director will be selected to encourage and advise the community organizations.

The "Chain Letter" plan for supplying funds to hospitals abroad or supporting other remote benevolent activities is not approved by the State Council of Defense.

American Women writing to their soldier relatives in France are requested by the Council of National Defense to make their letters bright and newsworthy and cheerful and, for goodness sake, refrain from expressions of anxiety and grief. If the boy in France is getting along all right don't throw him into a fit of worry by writing him a blue and despondent letter. Tell the soldiers what the folks at home are doing to keep up their end of the war.

The Food Administrator says to save sugar now or go without it later. Also that honey and syrups instead of sugar will make victory just as sweet and bring it much sooner.

State Liberty Loan officials say that Indiana has met all of the financial demands made upon her since the war began and still has more money in the pockets of her people than she had just before the war started. The Hoosiers are going to support their country with open-handed generosity, no matter how long the war lasts, and they are not going to worry about bankrupting themselves.

Sauerkraut has been investigated. It is said to be of Dutch origin and you can eat it without being pro-German. The Food Administrator says it is a patriotic dish in spite of its name.

Indiana is a corn state and it should not grumble when people everywhere are urged to use at least one corn meal dish at every meal.

Two thrift stamps will buy for some soldier boy somewhere:

- A pound of smoking or chewing tobacco; or
- Cheerons, and a pair of shoes; or
- A canvas basin, a comb, and a cake of soap; or
- A shaving brush; or
- A hair brush; or
- A bath towel and a face towel; or
- A pair of knit woolen gloves; or
- A pipe; or
- A pillow; or
- A chambray shirt; or
- A First Aid Packet.

## Michigan Housewife

Tells How Vinol Made Her Strong

Bronson, Mich.—"I took Vinol for a weak, run-down condition, and backache and had to keep up and do my housework for my family of three. Vinol has improved my condition so that now I feel like a different person."

Mrs. Albert Rose. The reason we recommend Vinol to our customers for such conditions, is because we believe it to be the most successful strength creator we know, containing as it does, beef and cod liver, peptones, iron, and manganese peptones and glycerol phosphates. The greatest of all tonics.

## Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.

Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feron at any druggist.

This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feron at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Note to Physicians: There is no secret about the formula of Bio-feron; it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron; Potassium; Magnesium; Potassium; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum; Kola.

## LITCHFIELD SPREADERS

Made by Experts.

The oldest spreader builders in the business.

The Litchfield has no complicated machinery. There are only two gear wheels on the entire spreader. All parts are unusually strong and there are few of them. Count the gears on other spreaders and the complicated parts and make your own comparison. We oil with compression grease cups our wheels and all other parts that will permit of this system, which combined with the self-oiling journal bearings, come as near fool-proofing the oiling system as it is possible to do.

## HIGH SCHOOLS TO CHANGE COURSES

To be Arranged Along Plans to be Made by Special Commission of Indiana Educators

FOR VOCATIONAL TRAINING

Two Groups of Students; One to Enter College, Other Whose Schooling Stops With High School

Indianapolis, Ind., July 29.—The course of study in Indiana high schools will be changed, along the plans arranged by a special commission of educators at the opening of the school term in September, it was announced today.

The program of the high schools in the state previously was designed almost entirely to fit the student for entering college. The new program takes into consideration the fact that a great majority of those persons who go through high school never enter college and the high school education ends their period of training.

The new curriculum also is designed especially to take care of those boys and girls who will enter some vocational training institution after they leave high school.

The student may, if not entering a college, omit the study of foreign language from his course. This is being interpreted to apply especially to German.

The course is divided into two groups—the first for those who intend to attend higher educational institutions, and second, for those whose training will end with the high school or a short period of vocational work.

The committee which had charge of outlining the new course, consisted of school superintendents and principals, with President W. E. Stone of Purdue university chairman.

## BRAND PHYSICIANS AS ARMY SLACKERS

If They Are Able to Enter Military Service and Have Not Already Made Application

QUESTIONNAIRES SENT OUT

(By United Press.)

Indianapolis, Ind., July 29.—Physicians able to enter military service but who have not yet made application to join the medical officers' reserve corps, may be publicly branded as slackers in Indiana.

Although the campaign to secure physicians for the army has resulted in a large number of enlistments, the state has not improved its standing to any great extent. It stands far down the list in the number of men sent to the corps in proportion to population.

Questionnaires have been sent to every doctor in the state, by the medical section of the state council of defense, asking each one to make a report on why he is not in service.

According to the plan, the committee will then send the names to all physicians it believes could enter the service, to the surgeon general in Washington. Every physician able and without dependents who would suffer, will be placed in Class A, it was indicated by the council today.

## SAMUEL HILE HURT IN FALL FROM TREE

Sustains Serious Injuries While Picking Plums at His Home in North Oliver Street

HIS SPINE MAY BE AFFECTED

Samuel Hile, 61, sustained serious injuries this morning when he fell from the topmost branches of a plum tree at the rear of his home in North Oliver street.

The accident occurred shortly after seven o'clock and although the injured man was not rendered unconscious, his suffering was intense. He had climbed to the top of the tree to pick the ripening plums and

## SUGAR REDUCTION FOR NEXT MONTH

Indiana's Allotment During August, Which is Cut Down One-Third, Totals 8,883,000 Pounds

TWO POUNDS PER CAPITA

Canning Certificates Will be Issued Subject to Same Restrictions as Obtained Heretofore

For the month of August Indiana's allotment of sugar totals 8,883,000 pounds. This is a reduction of practically one-third over the allotment for July, when certificates issued by the federal food administration covered a total of 14,021,835 pounds, upon which the distribution totaled 13,012,750 pounds.

In reference to the reduction, Dr. Harry E. Barnard, federal food administrator for Indiana, has issued notice to county food administrators and others interested, that certificates to retailers for the month of August should be based on 2 pounds per capita per month, and that hotels, restaurants and public eating houses shall make similar retrenchment by making 2 pounds of sugar sufficient for 90 meals. Heretofore, the per capita allowance has been 3 pounds per month, and the same quantity has been permitted for each 90 meals served in public eating houses.

Certificates for canning purposes will be issued subject to the same restriction that has obtained heretofore—that each purchaser be required to present a certificate upon which appears the O. K. of the local food administrator, or his authorized deputy.

After this concession has been made effective, the balance remaining will be distributed among other sugar consumers, but, on account of the seriousness of the situation now obtaining, Dr. Barnard has announced that "for the present" the issuing of certificates to manufacturers, bottlers, and various other less essentials, will be eliminated entirely.

The federal food administration endorsed, by making it a general order, the plan already in vogue in Indiana, of removing from the restaurant and public eating house the common sugar bowl. Hotels and dining cars are subject to a limitation of granulated sugar to each patron, giving a choice of either "two lumps, or one teaspoonful."

The increasing difficulties of securing sugar are said to have impelled many manufacturers, bottlers, soda fountain operators, and others normally using sugar, to resort to the use of saccharin. Dr. Barnard has issued to health officers and food inspectors, in addition to the county food administrators and their deputies, a special bulletin quoting the bureau of chemistry of the U. S. department of agriculture, in reference to the use of saccharin; that it is deleterious to health, and its use is in violation of the laws of 14 states, including Indiana. Dr. Barnard says, "there must be no weakening of our excellent food laws during the war." He says furthermore, that there will be vigorous prosecutions in any cases wherein it is found saccharin has been used in an article intended as food for human consumption.

lost his footing on one of the limbs which was slippery, because of the morning dampness. He fell to the ground on his back and although the physician who was called was unable to discover the extent of his injuries, his spine is believed to have been seriously affected. Because of the advanced age of the injured man, other internal injuries may develop.

TRANSFERRED TO LONG ISLAND

Information contained in a letter received from Harold Wolcott today states that he has been transferred to a camp in Long Island with the 326th Aero squadron. Wolcott was stationed in Morrison, Va., before being moved, and as he is now in quarantine, expects to embark for over there in a very short time. The unit with which he is now training is located next to that in which Robert Humes is stationed, and Private Wolcott hopes that he will be changing to the latter unit before embarking for France.

## CONSERVE WOOL

To conserve the supply of wool during the war you must save your clothes.

One way of doing this is to let us dry clean, press and repair them.

## GET READY

for the Rush County Chautauqua. Send us your clothing. We can make a new suit out of your soiled and disabled clothing. Special attention given to ladies' garments.

Have us call today and get your work out for you in time for the Chautauqua.

## An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.  
You eliminate that elusive knock.  
You stop the escaping gas around piston rings which abnormally heats the crank case.  
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.  
You use less lubricating oil.  
You use less gasoline.  
You drive slower on high gear.  
You take hills with perfect ease and grace.  
You attain greater speed on level.  
You eliminate the over-heating.  
You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up.

Quality Is Not a Fad With Us

It Is a Principle

BROWN BROS. GROCERIES

LET THESE COLUMNS BE YOUR GUIDE

Mrs. R. A. Peiry was hostess to the members of the Mother's club Saturday afternoon at her home in North Sexton street. During the business session, the following new members were taken into the club: Mrs. Lula Price, Mrs. Eva McBride, Mrs. Mattie Kirkham, Mrs. Eva Banta, Mrs. Katherine Emiley, Mrs. Mattie Oldham, and Mrs. Martha Stoten of Mays, and Mrs. Bridget Mullin, Mrs. Anna Denning, Mrs. Ella Bowen and Mrs. W. T. Smith of this city. A resolution has been passed that as soon as the yarn which is now on hand is exhausted, the members will discontinue the knitting of socks for the boys in service, and will send magazines instead as the Red Cross is attending to the supplying of clothing. Socks were distributed to the boys who left Thursday for Camp Taylor, in the court house Wednesday afternoon, by a committee of the members. At the close of the meeting, plans were completed for the next meeting which is to be an all-day affair at the home of Mrs. Lorena Marshall on the John C. Blackledge farm east of the city.

Mr. and Mrs. Henry Schattner celebrated their golden wedding anniversary yesterday at their home in West Fifth street with an informal family dinner at which all of their children and grandchildren were present.

Dinner was served in the evening and the dining room was arranged attractively for the occasion in yellow and green. Baskets of summer flowers were placed about the room and a charming centerpiece of yellow blossoms combined with greenery, was arranged in plateau effect. The guests included Mr. and Mrs. Joseph McCoy and family, the Rev. M. W. Lyons of this city, Mr. and Mrs. Thomas Rafferty and family and Mr. and Mrs. Bernard Logan of Indianapolis. Charles Schattner of Coeur d'Alene, Idaho, and Joseph Schattner, Indianapolis. The guests of honor were married in Cincinnati July 28, 1868 and removed to this city shortly after, where they have resided since that time.

A farewell party in the form of a miscellaneous shower was given by Miss Louise Murphy at her home near Glenwood Wednesday night for Mr. and Mrs. Van Lewark, who left the latter part of the week for Highland Park, Chicago, where they will live, and Private Lewark will resume his training at Fort Sheridan, Ill. Thirty guests were entertained during the pleasant evening with music and contests and the rooms of the home were arranged attractively for the occasion with flags and flowers, carrying out an appropriate note of militarism. Many beautiful and useful gifts were presented to the newly married couple and at the close of the evening, dainty refreshments were served by the hostess.

A prettily appointed dinner party was given yesterday at the home of Mr. and Mrs. Ed Chambers in East Seventh street, when the birthdays of Mrs. Chambers and Glant Perry of Columbus, Ind., were celebrated. A beautiful bouquet of Ophelia roses centered the attractively arranged table, when the splendid dinner was served in the dining room at noon. Covers were laid for the following guests: Mr. and Mrs. Glant Perry, Mr. and Mrs. Dave Marr and Mr. and Mrs. Henry Breeding of Columbus, and Mr. and Mrs. Fred Bell and Miss Alice Norris of this city.

The members of the Psi Iota Xi sorority will be entertained by Miss Dorothy Frazee tomorrow night at her home in East Sixth street.

Mrs. T. M. Green will be hostess to the members of the Ladies Aid

## Social Calendar

### Tuesday

Psi Iota Xi with Miss Dorothy Frazee in East Sixth street, in the evening.

Ladies Aid society of the First United Presbyterian church with Mrs. T. M. Green in East Fifth street in the afternoon.

Regular monthly meeting of executive committee of the C. W. B. M. in the afternoon at three o'clock, in the parlors of the Main Street Christian church.

Society of the First United Presbyterian church tomorrow afternoon at two o'clock. A good attendance is desired by the hostess and the executive committee of the society.

The members of the executive committee of the C. W. B. M. will hold their regular monthly meeting in the parlors of the Main Street Christian church tomorrow afternoon at three o'clock, and a good attendance is desired.

Mr. and Mrs. E. A. Lee entertained at dinner at their home in West First street yesterday, when covers were laid for Dr. and Mrs. H. A. VanOsdol of Indianapolis and Mr. and Mrs. John M. Lee of this city.

## HEARS OF SUDDEN DEATH WHILE HERE

Partner of Silas Lowe Who Was Killed Week Ago, Called Home by Unexpected Demise of Child

### SETTLING UP LOCAL AFFAIRS

Another episode in the tragic death of Silas Lowe and his daughter Irene, which occurred a week ago last night, was revealed last night, in connection with J. W. Overton, Lowe's partner, who had come to this city to adjust the final disposal of the skating rink which the men operated.

At the same hour which marked the death of Mr. Lowe and his daughter and the fatal injuries of his wife just one week before in an auto accident near this city, a telegram came from Stewartsville, Ind., the home of Mr. Overton, to the chief of police, telling of the sudden death of the two-year-old daughter of Mr. Overton.

In closing the negotiations for the sale of the rink, Mr. Overton had gone to Greensburg and as he failed to return until this morning, he was not aware of the death of his daughter until that time. The parent was grief-stricken and left immediately for his home, stating that the child was in perfect health when he left home only a few days ago.

Manford Lowe, son of Silas Lowe who had come from a Texas camp following the accident, was forced to leave on his return trip to camp without adjusting the affairs, since his furlough will be up tomorrow and Mr. Overton was unable to keep his appointment with Private Lowe this morning.

### Amusements

#### Madge Evans at Princess

Madge Evans, the talented little star will appear in "The Gates of Gladness" at the Princess theater tonight. This charming child actress has been at the Princess before and has gained a large number of admirers among the patrons of the theater. The Ford educational weekly will also be shown tonight. A big double program will be offered tomorrow with Patty Arbuckle in "Moonshine" and Enil Bennet in "Naughty, Naughty." Another screen version by Tom J. Geraghty formerly of this city, will be on the program Thursday night when J. Warren Kerrigan appears in "One Dollar Bid."

## Nurses Drive In Indiana Has Started

Campaign For Indiana Women to Enlist in the Nurses Reserve Was Begun Today in the Hope of Raising the States Quota of 25,000 Within Few Days.

The big opportunity for Indiana women to prove their patriotic interest and willingness to help win the war, comes with the enrollment of 1,500 student nurses, beginning this week, asked by Surgeon General Gorgas, as the State's quota of the 25,000 needed to care for the wounded fighters.

Arrangements are under way for the enrollment of these nurses through the Woman's section of the Indiana State Council of Defense. The number of nurses has been apportioned to population, and every county in the state, jealous of its war record and its reputation for prompt compliance with every request that has come from the federal government, is again put to the test.

Local hospital organizations, physicians, nurses, Red Cross chapters and social organizations have been asked to join in this recruiting campaign. They have been informed that young women registering for training as nurses will be given credit for the service in the event they desire to continue in the nursing profession after the war.

The surgeon general's call is for able bodied young women, between the ages of 19 and 35. Their registration at this time binds them to be in readiness until April 19, 1919 for assignment to a training school, civilian hospital or Army Nurses' school for the instruction that will fit them for the more arduous duties upon the fields of action.

Leading women of America are directing the student nurses recruiting. Dr. Anna Howard Shaw, an international figure is at the head of the campaign which in Indiana is under the direction of Mrs. Anne Studebaker Carlisle, woman member of the Indiana State Council of Defense, and her assistants in each of the 92 county councils of the state. The county women have been authorized to organize their own campaigns, with the suggestion that they utilize the very effective organizations in the townships and school districts.

## SOCIAL CLUB WILL NOT DISBAND DURING WAR

Organization Will be Kept Intact and Continued Along Similar Lines as Those Before War.

### NEW OFFICERS ARE ELECTED

The Social Club will not be disbanded even for the period of the war as the executive committee of the club planned some time ago, but will be continued upon lines similar to those observed in former years.

This was decided at a meeting of thirty-five of the old members who decided to continue the organization. Plans will be made soon by the new executive organization elected at the latest meeting whereby the club rooms might be used for patriotic purposes of various kinds. Nothing definite along this line has been decided upon, however.

E. J. Knecht was elected president of the organization; Guy Gordon, treasurer; Albert Allen, secretary. The other two directors include Robert L. Tompkins and R. F. Scudder. The house committee who will arrange for the entertaining features include Homer Havens, A. L. Riggs and Chauncey Duncan.

## BOYS FINED FOR STEALING POSTS

Continued From Page 1

that a close watch will be kept on the traffic posts and in the future offenders will be placed in jail and kept there over night or until there is a hearing by the court. Mr. Irvin stated that he is determined to have the traffic rules enforced to the last letter and that cases similar to that of last Saturday evening will not be treated with the laxness which marked the arrest of the first offenders.

## 850 League Members For Rush County

In Co-operation With Franchise League Membership Drive Thru State Rush County Will Soon Begin Plans For An Active Part in The Campaign.

Rush county's Franchise league workers, in co-operation with the membership drive throughout the state, are facing a strenuous campaign whereby the county is expected to enlist eight hundred and fifty new members.

The proposed campaign will be one of the biggest drives ever undertaken by any group of women in the state and in order to stimulate the work the following rewards are to be offered to the best promoters of the campaign in each district:

1. \$25 to the individual who secures the greatest number of memberships before October 1st. Her receipt book must be turned in to Perry before that date, with a signed statement by her league president and precinct captain that the contestant personally secured the memberships and that they are all paid-up.

2. \$25 to the individual who secures the greatest number of petition signatures before October 1st. Her filled petition blanks, properly attested, must be turned in before that date to her township chairman, accompanied by the signed statement of her league president and precinct captain that the contestant herself personally secured these signatures.

3. \$25 to the league which increases its membership by the greatest percentage by October 1st. The old membership will be taken from the amount of dues paid into the state treasury before April 1st, 1918. The increase will be measured by the amount of dues paid into the state treasury before October 1st.

4. \$25 to the league organized since April 1st, which secures the largest number of members by October 1st. Its membership will be measured by the amount of dues paid into the state treasury by October 1.

5. \$25 to the County Chairman who is first to secure her quota of memberships and petition signatures.

## BLUES WIN SUNDAY SCHOOL CLASS RACE

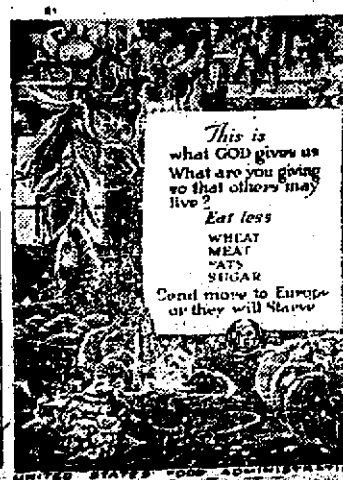

Reports Made Show They Have More Points Than Reds in Dr. Gilbert Class Contest

### RED CROSS WORK AIDED THEM

The animated contest which created an unusual amount of friendly rivalry between the Red and Blue divisions of the Dr. Gilbert Sunday school class of the Main street Christian church, has resulted in a victory for the Blues.

The final reports from the contest which opened the first of April and continued for three months, were made yesterday morning at the meeting of the class, disclosing the fact that the winning side had made 3,921 points while the losers totaled 3,790 points. Attendance, membership and Red Cross work were the three points contested.

The Red Cross work which was done by the winning side, far in excess of the losers, was the cause for their winning the contest since the Reds reported a larger number of points both in membership and attendance. Mrs. Martha Grindle alone, furnished 800 Red Cross points to her side of the contest.

## LIBERTY LOAN CONVERSION

All holders of Bonds of the First Liberty Loan, the First Liberty Loan converted, or the Second Liberty Loan may at any time between now and November 9th, 1918, convert them into Bonds bearing 4 1/4% interest, running for the same number of years.

As this process of conversion, on account of its magnitude, will likely require some considerable time, we would suggest that those who wish to convert, leave their Bonds with us for this purpose within the next sixty days.

Receipt will be given for all Bonds left for conversion and no charges will be made for our services in this connection.

USE FRUIT COMBINATIONS TO MAKE CONSERVES

Conserves are fruit produces prepared by combining several different kinds of fruit which blend well. Where small fruits are used in preparation, these are sometimes used whole, or they may be cut into small pieces, as is done with the larger varieties. Raisins or nuts, or both, are sometimes added. These add desirable flavors and increase the food value of the product. Conserves are used as condiments and make excellent spreads for sandwiches. In preparation, enamel or agate ware vessels should be used. The following have been selected from a long list of directions for making some of these which have been approved by the experience of many practical housewives:

- Strawberry Conserve**
- 1 quart strawberries
  - 1 pound raisins
  - 2 pounds sugar
  - 1 lemon
  - 1/2 pound nuts
- Chop or grate the lemon pulp and peel. Place strawberries, raisins, lemon, and sugar in saucepan and cook over a slow even fire until thick as jam. Add the chopped nut meats and cook for 5 minutes longer. Pack hot into 1-pint or pint jars which have been freshly sterilized, and seal at once. Boil (process) the 1-pint jars for 15 minutes, and the pint size jars for 30 minutes.
- Plum Conserve**
- 4 pounds plums.
  - 3 pounds sugar
  - 1 pound shelled nuts
  - 2 oranges
  - 1 pound raisins.
- Remove the seeds and chop the plums. Peel the oranges and slice

The Canning Club Girls Have Learned to Put up Prize-Winning Preserves of All Kinds.

thinly one-half of the peel. Mix the chopped plums, orange pulp, sliced orange peel, sugar and raisins and cook altogether rapidly until thick as jam. Add the nuts 5 minutes before removing from the fire. Pack hot into sterilized jars, seal, and boil (process) in hot water bath for 10 to 15 minutes for 1-pint jars, and 30 minutes for pints.

**Grape Conserve**

- 3 pounds grapes
- 1 pound sugar
- 1/2 pound finely ground raisins
- 2 large oranges.
- 1 pound finely ground nuts.

Take sound, ripe grapes, weigh and pulp them. Separate the pulp from the skins and heat the pulp juice until the pulp breaks down enough to liberate the seeds. Remove seeds by passing through a strainer. Grind the skins, add 1/2 pint water for each 6 pounds of fresh fruit, and cook until quite tender. Mix skins and pulp together and add for every 3 pounds of fruit 1 scant pound of sugar, 1/2 pound of finely ground raisins, the pulp of two California oranges, and one-fifth of the ground peel of one

lemon. Wash, peel, and core or stone the fruit. Pass through a food chopper and weigh. For each pound of fruit allow 1/2 pound of sugar. Put fruit and sugar in alternate layers in a bowl and let stand over night. Place the fruit, the pulp of the lemons, and one-half the rind of the lemons sliced thin into the preserving kettle and boil until the mixture is thick as jam. One cup of sealed, chopped nuts may be added if desired, 5 minutes before removing from the fire. Pack hot into hot sterilized jars, and seal at once. Boil (process) 1-pint jars in hot water bath for 15 minutes, and pint jars for 30 minutes.

**Medley Fruit Conserve**

- 2 pounds peaches
- 1 1/2 pounds quinces
- 1 1/2 pounds pears
- 1 pound apples
- 3 lemons
- Sugar.

Wash, peel, and core or stone the fruit. Pass through a food chopper and weigh. For each pound of fruit allow 1/2 pound of sugar. Put fruit and sugar in alternate layers in a bowl and let stand over night. Place the fruit, the pulp of the lemons, and one-half the rind of the lemons sliced thin into the preserving kettle and boil until the mixture is thick as jam. One cup of sealed, chopped nuts may be added if desired, 5 minutes before removing from the fire. Pack hot into hot sterilized jars, and seal at once. Boil (process) 1-pint jars in hot water bath for 15 minutes, and pint jars for 30 minutes.

NUMEROUS FOOD OFFICIALS RESIGN

With Vastly Increasing Duties Attached County Food Administrators Quit Their Jobs

WORK TAKES TOO MUCH TIME

Work Must be Done and is Deserving of Recognition and Support From Every District

With the vastly increased duties being imposed upon county food administrators, a number of resignations have been received by Dr. Harry E. Barnard, federal food administrator for Indiana. Difficulty has been experienced in some places in securing satisfactory successors and the situation is such that Dr. Barnard is urging public spirited citizens of the state to encourage the food administrators in the unselfish work they are performing under unusual difficulties and with no reward, save the sense of having made a conscientious effort to do their duty.

"It was originally hoped to have county councils of defense finance the office of the food administrator," said Dr. Barnard. "This being found impossible in many instances, the administrators themselves, in addition to the gratuitous work they did for the government and the people of their communities, paid from their own funds the expense of an office and stenographer. In other places there have been voluntary contributions from wholesalers and retailers who have appreciated the situation of the food administrator and the work he was called upon to perform, without recompense or assistance."

"Now we have the county food administrative organization in Indiana complete and in splendid working order. Some of the administrators are finding the work too exacting of their time and talents and are resigning. It is unfortunate that conditions have been discouraging, but the work was to be done and it has been done and it is deserving of recognition and support. Within a very short time it is expected that the federal plan of paying the expenses of the county food administrators will be in effect, and the source of greatest dissatisfaction will be thus removed. In the meantime I trust the patriotic people of Indiana, who know and understand the position of the county food administrator will rally round him and help him emulate the example of the good soldier who never quits under fire, nor abandons a campaign just started. The county administrators deserve credit for the important work of effecting an equitable distribution of staples, without which there must certainly have been hardships and possibly famine. They have been one of the saving factors in guaranteeing an adequate food supply for our soldiers and sailors and the starving civilian population of Europe. When the final record of accomplishment shall have been made up in connection with the emergency of the past year and a half, the work of the food administration of which they have been a very conspicuous part will reflect a measure of credit that will in part, I trust, justify the sacrifices they are making now."

WEATHER FOR WEEK

Washington, July 29.—Occasional thundershowers higher districts; fair elsewhere; temperatures averaging above normal.

## TRIBUTES FLOOD SOLDIERS HOME

Mrs. Flora Jackson Receives Beautiful Tributes in Memory of Her Son Carl Jackson

### FIRST ONE KILLED IN ACTION

Acquaintances of Private Jackson in Various Parts of Country Express Sympathy

Since the death of Carl Jackson—Rush county's first soldier to lose his life while engaged in active service in France—beautiful tributes from friends which he made while in service in the various training camps where he was stationed and in the nearby cities which he frequented, have flooded the home of his mother, Mrs. Flora Jackson.

The following letter which was received from friends in Fall River, Mass., is a touching memorial to Rush county's first son to pay the supreme sacrifice.

"We, who knew Carl while he was here, wish to tell you how sincerely we sympathize with you in the death of your son. We became acquainted with him shortly before he sailed for France but he was a boy whom we all felt proud to know. He was a gentleman at all times as shown by his letters and we are glad that it was our privilege to know him.

"Our acquaintance was very short but before he left he told us of his mother and showed us several pictures from his home. Where is there a person who does not admire a boy who loves his mother and his

## FREE SCHOLARSHIP FOR EVERY COUNTY

John Herron Art Institute Gives Free Schooling Following Competitive Examinations

### HIGH SCHOOL GRADUATES

(By United Press.)

Indianapolis, July 29.—One free scholarship for each county in Indiana has been provided for by the John Herron Art Institute of this city. Those who will receive the benefit of these scholarships will be chosen in the various counties by competitive examinations conducted by the county superintendent of schools.

This is the first year that the children of the state were allowed to compete for these scholarships, although about sixty have usually been awarded to Indianapolis children.

Applicants should be 16 years of age and high school graduates are preferred.

home? We promised to write to him and we have done so ever since he left Newport. We all liked him and looked forward to his return hoping to renew our acquaintance.

"Unfortunately he has been taken from us and while we feel his death very keenly and will miss his letters, we realize that your sorrow is greater than ours and we wish to offer our heartfelt sympathy. There is the regret that he has been taken so early in life but then God knows best and we must all try to realize that he died for a noble cause."

## MEDAL TO MAN WHO SANK HUN U-BOAT

American Defense Society Pays Tribute to Valor of Lieut. Commander Bruce R. Ware

### IS FIRST SUBMARINE SUNK

Lauds Lieutenant as Avenger of Slain Women and Children of The Lusitania

"We have put the fear of gunfire and depth charges into the submarine's heart," said Lieutenant Commander Bruce R. Ware, Jr., upon being presented with the American Defense Society's medal "for distinguished service in the United States," designed by George R. Brewster and donated by Dr. Lee de Forest, in recognition of his "technical skill," judgment and coolness in an emergency when, in charge of a gun crew of the American steamship Mongolia, he dedicated on April 19, 1917, the firing of the first shot against the armed forces of Germany, sinking a submarine.

"Many soldiers in France owe their lives to Lt. Ware's presence of mind," said John Stone, chairman of the Medal Committee, in awarding the medal. "Many American homes would be mourning the loss of loved ones destroyed by the U-boat but for his coolness and accuracy of judgment." Mr. Stone expressed the hope that it would be the first of many great distinctions achieved by Lieutenant Ware.

"Lieutenant Commander Ware performed a consecrated act, avenging slain women and children of the Lusitania, when he fired that shot," said Dr. De Forest, the donor of the medal. "It was the first of a long series of shots aimed at the snake of the sea, and at the present rate it won't take long to clean up the vipers. Lieutenant Commander Ware honors us more in his acceptance of this medal than we can honor him by its donation."

## SHIPS WHEREABOUTS REGARDED AS SECRET

Sailing, Departure, Location or Supposed Location of Ships Must Not be Publicly Announced.

### ORDER OF NAVY DEPARTMENT

Following the information received from the navy department concerning the supposed location of ships, Rush county people have been notified that any mention made concerning ship movements which might have come under their surveillance will be regarded as a violation of the law.

Because the numerous Rush county boys, who as members of the navy are stationed in various ports, disclose their location and the names of the vessels to homefolks, it is possible that valuable information concerning the sailing, departure, location or supposed location of any ship in American waters might be available to the employees of Germany through such sources.

With the desire to enforce a ruling whereby the greatest secrecy concerning ship movement might be maintained, the newspapers have been asked to make no mention of the whereabouts of ships even if such information is given to them from various sources.

## MARTHA ANN MOORE EXPIRES EARLY TODAY

Dies at Age of 75 Years at the Home of Her Brother, W. H. Moore, Northeast of Arlington.

### FUNERAL TOMORROW 2:00 P. M.

Martha Ann Moore, 75, died early this morning at the home of her brother, H. W. Moore, northeast of Arlington, after a short illness which resulted in a complication of diseases.

The deceased had been ill for only three weeks but following an attack of malaria fever, leakage of the heart developed, as the result of her advanced age and weakened condition. Two brothers, H. W. Moore and J. B. Moore, both of this county, in addition to several nieces and nephews. George B. Moore, Jr., county clerk, is a nephew to the deceased.
